SUMMARY

Computer Science Engineering undergraduate with knowledge of C++, Python, SQL, React, and Salesforce CRM. Skilled in problem-solving, database management, and developing technology-driven solutions. Strong analytical, communication, and teamwork abilities, with experience coordinating projects and translating practical requirements into user-focused solutions. Interested in technology solutions, digital transformation, and business process improvement.

EDUCATION

Vellore Institute of Technology (VIT), Bhopal 2023 – 2027
B.Tech in Computer Science Engineering

Shri Dev Murlidhar H.S. School 2022
Class XII

Shri Dev Murlidhar H.S. School 2020
Class X

PROJECTS

E-Commerce Shopping Website *React, JavaScript, HTML, CSS, Firebase*

- Built a responsive e-commerce website with product listings, shopping cart functionality, and user authentication.
- Integrated Firebase for database management and authentication; implemented product filtering, category-based search, and reusable UI components.

AYUSH VIKAS SETU (SIH 2024) *Web Development, Team Project*

- Developed a prototype portal for the Ministry of AYUSH to streamline information management and entity update workflows.
- Contributed to user-friendly interfaces and team-based development; the project aimed to reduce entity update time by approximately 50%.

VitalVibe – Medicine Reminder Application *HTML, CSS, JavaScript*

- Created a medicine reminder application with date- and time-based reminders, medicine search, and history management.
- Designed a simple, user-friendly interface focused on accessibility and helping users manage medication schedules.
